

NOVIPAX™

Absorbent Solutions
for Healthcare

From acute to operating room care settings Enhance patient care with quality absorbents

From the ICU to the operating room, acute care practitioners deserve the highest quality materials. That's why our absorbent solutions are precision-engineered for reliable performance when it matters most. Higher performing absorbents lead to better patient care—and improved patient outcomes.

For providers ensuring patient health and wellness is an ongoing journey. Our reliable absorbent solutions are designed to enhance patient care, day in and day out, making providers' jobs easier and improving quality of life for those they serve.

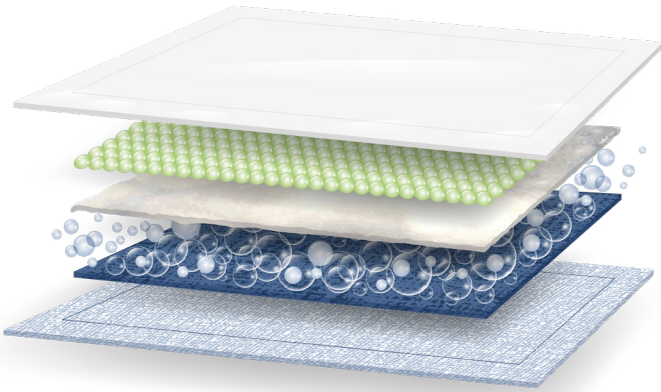

Made in the USA

We believe we're only as successful as the American communities where we operate. That's why we're committed to doing everything we can to make them better places for our neighbors to live, work, and play. From providing lifelong career opportunities to our valued team members to investing in community betterment initiatives with real-world impact, we measure success one family at a time.

Our state-of-the-art manufacturing facilities and raw material partners are strategically located across the United States for the industry's most reliable supply capabilities.

Absorbent technologies engineered for performance

At Novipax, innovation starts with customization. We partner with healthcare experts to help accelerate our knowledge of medical absorbency needs. Our Novipax team has the capability to build custom solutions with quality materials and technology.

Healthcare Products

Floor Guard

Ideal for surgery room floors, ambulances, and helicopters, the pad reduces the risk of both bacterial contamination and slip-and-fall injuries.

Counter Guard

Specifically designed for medical facilities and transport vehicles to facilitate the delivery of seamless patient care, the pads ensure a clean, dry working environment.
