

NOVIPAX™

Absorbent Solutions
for Seafood

From the ocean to your plate

Fresh seafood starts with reliable absorbent pads

From the manufacturer to the processor to retail, Novipax has quality solutions that protect seafood throughout the supply chain. Whether looking for protection or moisture absorption, our products keep food fresh the moment it leaves the sea.

Novipax has a product mix that is comprised of innovative and high-quality absorbent pads. We partner closely with our customers to engineer customized, food-safe solutions that solve packaging needs at various stages of the supply chain.

Made in the USA

We believe we're only as successful as the American communities where we operate. That's why we're committed to doing everything we can to make them better places for our neighbors to live, work, and play. From providing lifelong career opportunities to our valued team members to investing in community betterment initiatives with real-world impact, we measure success one family at a time.

Our state-of-the-art manufacturing facilities and raw material partners are strategically located across the United States for the industry's most reliable supply capabilities.

Seafood Products

Dri-Loc®

Featuring a highly absorbent fluff core, the legendary Dri-Loc offers advanced moisture control technology that enhances the shelf appeal of packaged fresh seafood.

Pad-Loc®

Engineered for super absorbency and built for exceptional wicking of excess moisture, the Pad-Loc is designed with fluff core surrounded by poly front and non-woven bottom layer.

XtendaPak™

XtendaPak features an active absorbent with additives producing CO₂, which slows respiration rate, thus extending shelf life and appearance. Pair with breathable film for optimal performance.

Pad	Item #	Dri-Loc Description	Absorbency	Pack Size
DLAC40	100920574	Dri-Loc Pad, 4" x 6.5" White/White	40g	3000 EA/CS
